

# All-on-4<sup>®</sup> Patient Hygiene & Maintenance Course

4 October 2024 | Sydney, Australia

## Overview

This course is designed to equip you with the knowledge and skills to treat patients with single dental implants, All-on-4<sup>®</sup> implants and bridges in accordance with the Malo Protocol.

## Course Information

**Lecturer:** Alannah Flegg (BOH U.Syd)

**Dates:** 4 October 2024

**Venue:** Next Smile Sydney,  
Ground Floor – 332 Oxford Street, Bondi Junction

**Cost:** \$700.00 + GST  
(Full day course, course material and lunch provided)

**CPD hours:** 7 hours

## Synopsis

You'll learn how to effectively educate patients on the proper cleaning and maintenance of their All-on-4<sup>®</sup> implants and bridges. This course highlights that proper maintenance is just as crucial as the surgical phase for long-term success. It underscores the essential role of OHTs and Dental Hygienists in this process.

Additionally, the course covers best practice techniques and clinical tips for All-on-4<sup>®</sup> bridge removal and re-screwing, as well as laboratory protocols for bridge cleaning.

The one-day training utilises a combination of didactic, practical exercises, and live patient demonstration to ensure a comprehensive learning experience.

## Alannah Flegg, Oral Health Therapist

Alannah graduated as an Oral Health Therapist from University of Sydney in 2015 with a bachelor's degree in oral health. For the past 9 years Alannah has been working in general practice focusing on patients of all ages and treatment needs. Alannah now works exclusively in Bondi Junction for Next Smile Australia & Dental Fresh providing specialist maintenance care to their All-on-4<sup>®</sup> implant and general dental patients.

She was introduced to the AIRFLOW<sup>®</sup> Prophylaxis Master and Guided Biofilm Therapy (GBT<sup>®</sup>) in 2023. The care that could be matched with her attention to detail for her implant patients improved significantly which led Alannah to become an SDA EMS Ambassador as she is passionate about providing education not only to her patients, but also to her colleagues in maintaining All-on-4<sup>®</sup> implants.

Alannah loves to read new dental textbooks in her spare time and learn from others with their research articles. She is a firm believer in upskilling and staying on the front foot of education. She is an approachable clinician who is always open to learn more about dental hygiene techniques and worldwide information from other professionals.
